refreshingly different self catering cottages

## WHO WE ARE

We are a family-run company with a select portfolio of around 50 design-led properties on the Northumberland coast. We have personally holidayed here since we were children so can tell you about those off the beaten track places or provide insider knowledge that you might not get elsewhere.

We understand that holidays are precious and want all our guests to have an unforgettable break. Our discerning holidaymakers return to us year after year for our high quality homes and personal service, from helping them find the right location, the much sought-after log fire or the perfect toddler haven.
